Premium Vinyl Windows and Doors for New Construction

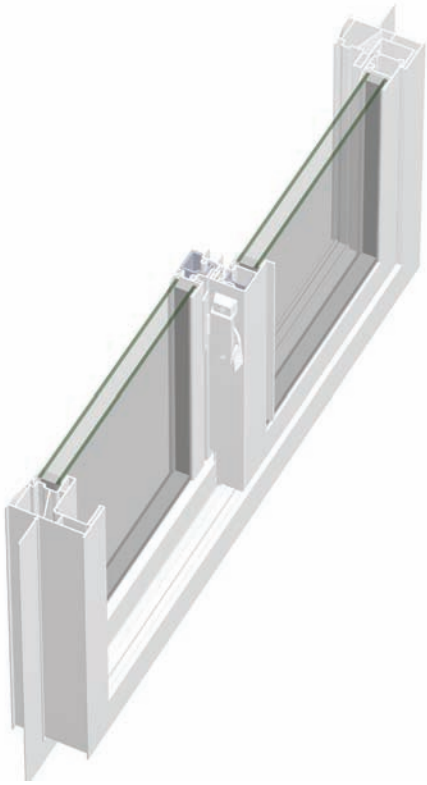

Series 6000HS Horizontal Sliding Windows

Available in sliding, picture window and matching #6000SH single-hung window.

- 3/4" insulated glass provides energy saving, thermal efficiency
- Warm-edge, insulated glass technology reduces condensation up to 80%
- Precision-mitered, fusion-welded corners provide superior strength and weather resistance
- Double aluminum-reinforced interlocks provide a weather tight seal and added security
- Double weather-strip at interlock prevents air and water infiltration
- Multi-chambered frame assembly improves thermal performance and helps enhance sound absorbency
- Sliding sash lifts out for safe, easy cleaning from the inside
- Tandem wheel and axle assemblies assure smooth easy operation and even reveals
- High glass to frame ratio provides maximum viewing area
- Cam-lock and keeper help provide a weather tight seal and added security
- Features a 1" nail-fin setback

Custom Options

- Low-E Glass for additional energy efficiency

Limited Lifetime Warranty
Color Options: White, Almond

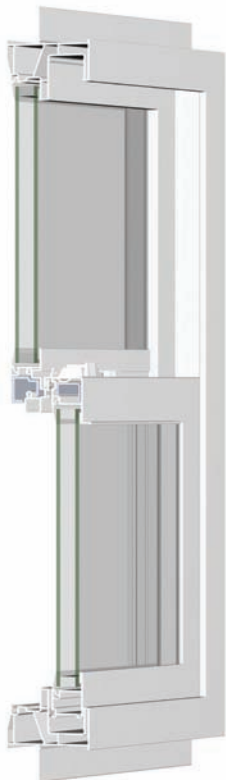

Series 6000SH Single-Hung

Available in single-hung, picture window and matching #6000HS horizontal sliding window.

- 3/4" insulated glass provides energy saving, thermal efficiency
- Warm-edge, insulated glass technology reduces condensation up to 80%
- Precision-mitered, fusion-welded corners provide superior strength and weather resistance
- Double aluminum-reinforced interlocks provide a weather tight seal and added security
- Double silicon treated fin seal weather-strip blocks moisture, resists rot and seals out weather
- Multi-chambered frame assembly improves thermal performance and helps enhance sound absorbency
- Removable sash makes it easy to clean window from the inside
- Cam-lock and keeper help provide a weather tight seal and added security
- High glass to frame ratio provides maximum viewing area
- Integral finger pulls make it easy to open/close window
- Features a 1" nail-fin setback

Custom Options

- Low-E Glass for additional energy efficiency

Limited Lifetime Warranty
Color Options: White, Almond

Series 8000 Horizontal Sliding Windows

- 7/8" Insulated glass provides energy saving, thermal efficiency
- Warm-edge, insulated glass technology reduces condensation up to 80%
- Precision-mitered/fusion-welded corners block moisture, resists rot and seals out weather
- Commercial grade structural integrity qualifies this window for use in a wide variety of construction applications
- Commercial grade, heavy-duty construction is 100 MPH wind-zone rated for exceptional performance in extreme weather conditions
- Extra heavy-duty wall thickness engineered into vinyl frame and sash for superior durability and thermal performance
- Multi-chambered frame assembly improves thermal performance and helps enhance sound absorbency
- Double, steel reinforced interlocks provide exceptional structural integrity/strength and comforting security
- High-pile weatherstrip at interlock prevents air and dust infiltration
- Adjustable tandem wheel and axle assemblies assure smooth ease of operation and even reveals
- Positive action cam-lock helps provide a weather-tight seal and added security
- Equal glass size provides visual symmetry in the use of internal grid patterns
- Integral, prepunched mounting flange targets proper nail location for quick, easy installation
- Dual, concealed drainage system keeps rain where it belongs – outside
- Choice of White, Adobe or Almond color options

Series 8100 Single-Hung Windows

- 7/8" Insulated glass provides energy saving, thermal efficiency
- Warm-edge, insulated glass technology reduces condensation up to 80%
- Precision-mitered/fusion-welded corners provide superior structural strength and weather resistance
- Commercial grade structural integrity qualifies this window for use in a wide variety of construction applications
- Commercial grade, heavy-duty construction is 100 MPH wind-zone rated for exceptional performance in extreme weather conditions
- Extra heavy-duty wall thickness engineered into vinyl frame and sash for superior durability and thermal performance
- Multi-chambered frame assembly improves thermal performance and helps enhance sound absorbency
- Double steel reinforced meeting rails provide superior strength and rigidity
- Silicon treated fin seal weatherstrip blocks moisture, resists rot and seals out weather
- Removable sash makes it easy to clean the window from the inside
- Positive action cam-lock helps provide a weather-tight seal and comforting security
- Integral finger pulls make it easy to open/close window
- Contoured glazing stop creates a subtle exterior elegance
- Dual, concealed drainage system keeps rain where it belongs – outside
- Integral, prepunched mounting flange targets proper nail location for quick, easy installation
- Choice of White, Adobe or Almond color options

Series 8400 Vinyl Door

- n** Elegant slim line design adds style, value and comfort to any home
- n** 7/8" tempered, insulated glass with warm-edge technology provides safety and optimum energy efficiency
- n** Multi-chambered vinyl extrusions enhance thermal performance
- n** Fusion welded frame and sash provides exceptional structural strength
- n** Steel reinforced door panels enhance overall durability
- n** Adjustable, tandem steel wheels and heavy duty hardware provide smooth, easy operation
- n** Hidden drainage systems in frame and sash assure a watertight structure
- n** Equal size glass lites and a high glass to vinyl ratio make the 8400 one of the most architecturally attractive patio doors available

Size guidelines:

Minimum width - 48"

Maximum width - 108"

Minimum height - 72"

Maximum height - 96"

Series 370 French Door

- n** Elegant garden door appearance with an extra-wide 6" bottom rail
- n** 1" tempered, insulated glass with warm-edge technology provides safety and optimum energy efficiency
- n** Multi-chambered vinyl extrusions enhance thermal performance
- n** Fusion welded frame provides exceptional structural strength
- n** Mechanically assembled sashes at a 90 degree angle
- n** Additionally reinforced meeting rail for structural integrity
- n** Multi-point locking system provides superior pull-in mechanism and structural performance
- n** Internal weeping system in frame for maximum water drainage efficiency
- n** Heavy-duty zinc die-cast handle for years of durability
- n** Available in two, three and four panel construction
- n** Optional decorative grids
- n** Optional Low-E glass

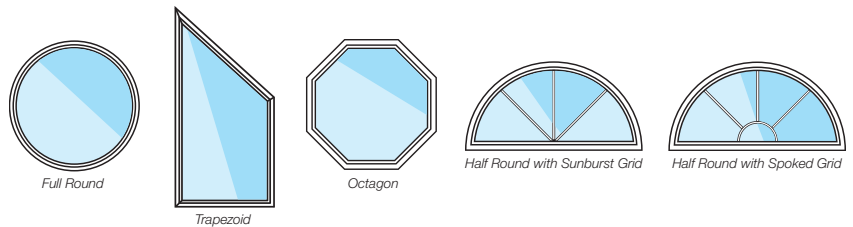

Series 1600 Vinyl Hinged Door

- n Beauty and elegance in a high-performance vinyl hinged door
- n Warm-edge insulated glass technology reduces condensation
- n Integrated 1 3/8" pre-punched nailing fin for easy installation
- n 5 - 15/16" wide frame (4-9/16" from nailing fin)
- n Internal weeping system for maximum water drainage efficiency
- n Heavy-duty weather strip to minimize air and water infiltration
- n Superior sill weather strip is ultra-resistant to wear and tear
- n Anodized extruded Champaign aluminum sill cover is corrosion resistant with a thermal break and an integral rolling track for optional screen
- n Available in one, two, three and four panel configurations
- n Optional decorative grids
- n Optional Low-E glass
- n Optional decorative glass

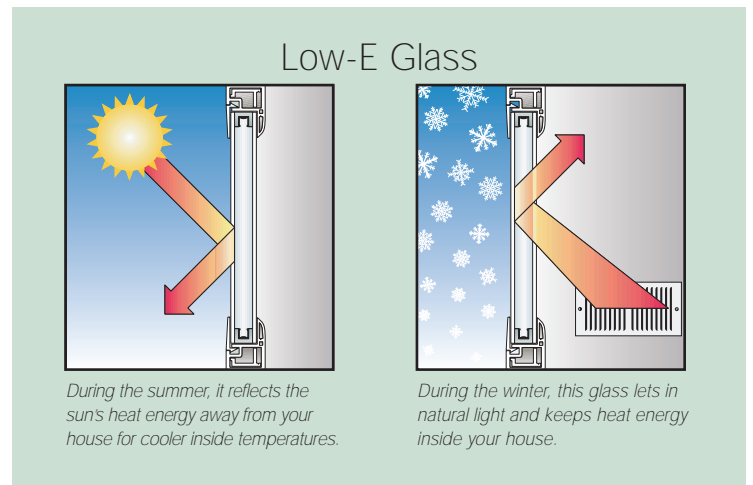

Shapes

From octagons and trapezoids to full circle, half rounds and eyebrows, Atrium offers a full range of architectural options to accommodate any style.

Optional Energy Saving Low-E Glass Technology

Low-E glass is coated with a virtually invisible layer of silver that reflects radiant solar energy while permitting visible light to pass through the glass. In cold, winter climates the Low-E glass helps keep rooms warmer by reflecting heat back into the home while letting warm, solar rays in. In hot, summer temperatures the Low-E glass lets visible light pass while blocking infrared and ultraviolet radiant solar energy. So your rooms stay cooler and you save on precious energy costs. An added bonus of Low-E glass, blocking radiant solar energy, also helps protect room furnishings from fading.

The Atrium Warranty

You'll like what's behind our windows: a limited lifetime warranty on vinyl, glass, and all working parts. We register each product individually, with its own product identification number (PIN) for easy replacement of parts.
